NEW FORMAT FOR LABELS

The label used on Chess Antics, or other correpondence, lists information which could be useful to you.
The top line of your label includes, type of membership, i.e reg, schl, life, and comp. Next is a deposit number, which indicates the DNO that included your dues. Next, if it has been supplied to me, is your USCF ID#. This is now your ACF# as well. Finally, is your date of membership expiration, this number will prove your eligibility at any tournament which requires ACF mrmbership.

NOTE: This does not indicate USCF eligbility.

Alabama Scholastic Chess Summer Planning Session
Minutes from the June 19, 1994 Meeting

The annual summer Alabama Scholastic Chess Planning Session was held on June 19,1994 at 6:45 p.m. at Camp Sumatanga. The meeting was held in conjunction with the first annual Alabama Scholastic Chess Camp featuring Grandmaster Edmar Mednis, National Master Richard Benjamin, and Life Master Kyle Therrell. Those in attendance included the following: Virginia Amberson, Boaz; Caide Bryant Bryant, Huntsville; Betsy Graham, Tuscaloosa; Jack C. Mallory, Mobile; Dick Rhea, Boaz, Vasha Rosenblum, Hoover; Bill Savoie, Huntsville; Dorthy Schaetzle, Tuscaloosa; Mike Schaetzle, Tuscaloosa; Walter Schaetzle, Tuscaloosa; Kenneth Sloan, Birmingham; and Mary Frances Thomas, Huntsville.

The meeting began with an affirmative appraisal of the continued success of the scholastic chess program in Alabama. It was noted that not only the quantity of scholastic players is increasing, but the quality of play is improving as well. Matthew Puckett, Andy Reeder, Daniel Thomas and Andrew Whatley are all among the top fifty scholastics in the nation for their age group as listed in the USCF Ratings Supplement. It was suggested that scholastic programs address the needs of recruiting more players and fostering the development of existing players. It was noted that Alabama Scholastic Chess is only as strong as the individuals who volunteer their time to develop programs for our young people, and that these individuals provide an invaluable resource. It was pointed out that while many new school groups are emerging other methods of organization are developing which are community-based. It was suggested that methods be developed whereby these programs could participate on a team basis in more scholastic tournaments. It was further noted that where appropriate, there should be consistency with national rules for scholastic tournaments and other USCF sponsored events. After these initial opening remarks, these four topics were discussed: (1) methods of including more participants in scholastic tournaments while maintaining consistency with national scholastic rules for state championship competitions, (2) the procedure for using alternates in state team tournaments, (3) suggestions for conducting local scholastic tournaments (excluding state championships), and (4) the schedule of scholastic events for the upcoming year.

After discussion and a unanimous vote, those attending made recommendations for an amendment to the rules governing the use of alternates at the state team championship and the organization of participants. Suggestions for the organization of local tournaments (excluding state championships) were also enumerated. These recommendations were voted on and passed unanimously by the following members of the ACF Executive Committee: Jack C. Mallory, Dick Rhea, Bill Savoie, Walter Schaetzle, and Mary Frances Thomas.

Therefore, the following rules will apply for the 1995 State Team Championship, and the following suggestions should be considered by local tournament directors for all scholastic events excluding the Alabama Scholastic Championships. Also included is a tentative schedule for scholastic events for the upcoming year.

Respectfully Submitted,
Mary Frances Thomas

RULES GOVERNING
THE ALABAMA STATE SCHOLASTIC CHESS TEAM CHAMPIONSHIPS

I. The Alabama State Scholastic Chess Team Championships shall be held each year at sites and on dates designated by the Alabama Chess Federation's executive committee. They shall be conducted by an affiliate club of the Alabama Chess Federation designated by the Alabama Chess Federation. If practicable, the school holding the title from the previous year shall have the right to host the championship in their category.

II. All players must be enrolled as students in a school located in the State of Alabama and be members of the Alabama Chess Federation. A team shall consist of four players and an alternate. All players on a team must be enrolled in the same school* and must be in grades K through 3 for primary teams, K through 6 for elementary teams, K through 9 for junior high school teams, and K through 12 for high school teams.

III. These championships shall be run using the pairing rules of the United States Chess Federation for team competition. All play shall be governed by the Laws of Chess as defined by the United States Chess Federation. The number of rounds, the rate of play, prizes, chief tournament director, and other details of the tournament shall be determined by the sponsoring chess club with the approval of the Alabama Chess Federation's executive committee.

IV. Players on a team shall be arranged in order of their United Chess Federation rating, with the highest rated player on board one, second highest rated player on board two, etc. The alternate must be rated equal to or lower than the fourth board player. One or more team players may miss any round at the discretion of their team captain. The order of the other team members shall not change but they must move up to fill gaps left by missing players. The alternate must then play at the highest empty board.**

V. The primary purpose of these championships shall be the designation of the Primary Team Champion, the Elementary Team Champion, the Junior High School Team Champion, and the High School Team Champion of the State of Alabama. State titles shall not be awarded to individuals at these tournaments. However, prizes may be awarded to individuals at the discretion of the tournament organizers with the approval of the Alabama Chess Federation's executive committee.

VI. Prizes may be trophies, medals, books, etc. of moderate monetary value. Money prizes shall not be allowed.

VII. These rules shall be subject to modification, from time to time, as deemed appropriate by the Alabama Chess Federation's executive committee. The Scholastic Vice President of the Alabama Chess Federation may appoint an advisory committee of experienced tournament directors to make recommendations on these rules.

* Some schools within the State of Alabama do not follow the K-3, 4-6, 7-9, 10-12 format. Consequently, if a student, for example, attends grade 5 at an elementary school which does not have grade 6 and the next year moves to another school for grade 6, that student while a 6th grader may be allowed to play for his former "elementary" school's team. Due to the complex variations within the State of Alabama's public and private schools, rules covering all exceptions would be very complex. Therefore, any request for an exception from Rule II must be submitted in writing to the Scholastic Vice President of the ACF. The Scholastic Vice President will make every effort to accommodate special cases so long as the variations are fair to all school teams.

** The arrangement of team players and the use of alternates is covered by Rule 31B in the *U.S. Chess Federation's Official Rules of Chess, 4th Edition*. Example 1: The player on board two becomes ill. Then the board two player moves to board one, the board three player to board two, the board four player to board three and the alternate plays board four. Example 2: The players on boards two and three miss a round. Then the board one player plays on board one, the board four player moves up to board two, the alternate plays board three, and board four is forfeited.

Suggestions for the treatment of teams in Individual Alabama Scholastic tournaments

While the ACF does not directly control the conditions of any scholastic tournament other than the State Championships, it is useful to have clearly stated default rules. The rules below are meant to be suggestions to organizers of Scholastic events. Unless otherwise stated in pre-event publicity, players and coaches should reasonably expect these suggestions to be followed.

1. Individual tournaments should be run "team blind". This means that players on the same team can, and will, be paired against each other in all rounds. Team awards may be given, but the tournament should be run in all respects as an individual event.

2. In these individual tournaments, teams are not strictly bound to any particular school (as they are in the State Team Championship, and in National Scholastic events). Teams are strongly encouraged to continue to organize around their school, if that is where their club meets. The intent is to allow teams identified with non-school clubs and from closely related schools which do not meet the strict requirements of "same school, same building". Organizers should ask for a "team name" rather than a "school name" on entry forms. Of course, the makeup of any team must be made clear at the start of the event.

3. In these individual tournaments, there should be no limit on the number of players on a particular team. In general, all players from a particular school, or other club, should continue to identify with that club.

The overriding principle is that the "team" aspect of these individual tournaments should be used to promote team spirit and club morale, without interfering in any way with the individual nature of the event. The second principle is that "teams" should be interpreted a bit more loosely than required in National Scholastic events (and in our own State Team Championship).

Over the centuries players and philosophers have attempted to explain the addictive fascination chess has for its practitioners. None have discussed this subject with greater eloquence than Stephan Sweig in his short story, *The Royal Game.*
Jack C. Mallory

" There is a mysterious attraction to the royal game, this one among all games contrived by man which rises superior to the tyranny of chance and which bestows its palms only on mental attainment, or rather on a definite form of mental endowment.

But is it not an offensively narrow construction to call chess a game? Is it not a science too, a technique, an art, that sways among these categories as Mahomet's coffin does between heaven and earth, at once a union of all contradictory concepts: primeval yet ever new; mechanical in operation yet effective only through the imagination; bounded in geometric space though boundless in its combinations; ever developing yet sterile; thought that leads to nothing; mathematics that produce no result; art without works; architecture without substance, and nevertheless, as proved by evidence, more lasting in its being and presence than all books and achievements; the only game that belongs to all peoples and all ages and of which none knows the divinity that bestowed it on the world to slay boredom, to sharpen the senses, to exhilarate the spirit.

One searches for its beginning and for its end. Children can learn its simple rules, duffers succumb to its temptations, yet within this immutable tight square it creates a particular species of master not to be compared with any other---specific geniuses in whom vision, patience, and technique are operative through a distribution no less precisely ordained than in mathematicians, poets, composers, but merely united on a different level.

It stands to reason that so unusual a game, one touched with genius, must create out of itself fitting matadors. But it is difficult to conceive of the life of a mentally alert person whose world contracts to a narrow, black-and-white space; who seeks ultimate triumphs in the to-and-fro, forward and backward movement of thirty-two pieces; a being who, by a new opening in which the knight is preferred to the pawn, apprehends greatness and the immortality that goes with casual mention in a chess handbook--- of a man of spirit who, escaping madness, can unremittingly devote all of his mental energy during ten, twenty, thirty, forty years to the ludicrous effort to corner a wooden king on a wooden board!"

SEARCHING FOR ANDY REEDER??

BY:MICHAEL J. SCHAETZLE

It takes a lot to succeed in any endevour. Andy Reeder has felt some of that success through hard work, perseverance and the support of family and friends. He was the winner of the 5th grade section at the National Grade School Championships in 1993, placed 3rd in the K-5 section of the National Elementary and placed 7th in the u1800 section of the World Open this year. Starting to play tournament chess in 1991 with a first rating of 964 he is currently rated near 1875. He has spent his summer attending the Alabama Chess Camp, taking lessons fron Life Master Kyle Therrell and playing tournaments most weekends and has gained 150 of his rating points in the three weeks since camp-A huge accomplishment for anyone. The "Tuscaloosa Kid" is making rapid advancements in the chess world.

Along with other strong scholastic players, most notably Matthew Puckett, Daniel Thomas and Andrew Whatley, he is the future of Alabama chess. I hope you will join me in cheering on these and other scholastic players as their accomplishments grow in the future.

1994 U.S. National Elementary Championship

May 6 - 8, 1994 San Jose, California

For a city claiming over 300 sunny days a year, the first three days of this tournament it rained. There were no dampened spirits though!

1,100 Scholastic players gathered in San Jose on Mother's Day weekend to play for the National Titles.

Simuls/Exhibitions by GM Walter Browne, NM Alan Stein, NM David Peterson, and GM George Koltanowski, recently named an American Chess Treasure by U.S.C.F., entertained players, parents and coaches.

Players from Alabama included:

Kindergarten: Peter Sloan - 3.5 points finished 23rd.

Primary: John Morcos - 3.5 points

Emily Thomas - 4.0 points - finished 2nd in under 900 section.

Elementary K-5: David Sloan - 4.5 points

Daniel Thomas - 5.0 points, finished 15th.

Andy Reeder - 6.0 points, finished 3rd.

This was the first National Tournament for some of these players. We are proud of all of you!

Alabama Chess Camp

Camp Sumatanga - June 19 - 24,1994

Alabama's first Chess Camp was headed by GrandMaster Edmar Mednis, National Master Richard Benjamin, and Life Master Kyle Therrell. ACF Pres. and Organizer Walter Schaetzle and Scholastic Coordinator Mary Francis Thomas were instrumental in making this camp a success. Six - Eight hours of Chess including lectures, exercises, games and analysis were part of each day. Swimming and Ping Pong were part of the agenda also.

Those attending were: Hughes Amberson, John Bryant, Jim Hughes, Alex LaVelle, John Morcos, Andy Reeder , James Richardson, Bill Savoie, Michael Schaetzle, James Schaetzle, Mark Slovin, Matthew Taylor, Daniel Thomas, and Joanna White.

All agreed it was a great week and are eagerly awaiting next year.

We are fortunate to have Walter Schaetzle and his family, Dorothy, Michael, and James, in Alabama to organize tournaments such as the Junior Congress, Amateur South, and a Chess Camp.

The following game was sent in by A. J. Goldsby. This is a game between A.J. and Jeff Smedley from Rd. 4 of the 22nd Annual Queen of Hearts where A.J. tied for 1st. Of Jeff Smedly. A.J. says. "Black lost without a single error or blunder." I haven't gone over the game and I do hope I don't make any typo's except perhaps my usual poor spelling. Well those are typo's aren't they? Any way I'll bet it took as long to type this as the game lasted.
